

# The London Eye Mystery by Siobhan Dowd

The themes we are focusing on in this book are identity, belonging and family

We will explore how Ted has his own unique identity through the way he thinks and sees the world, and how this should be viewed as a strength rather than a limitation. We will also explore the importance of adapting when change happens and how being inclusive and supportive is especially important in new or unfamiliar environments. Finally, we will explore the importance of family, and how working together and recognising each other's strengths can help us solve problems and support others.

## Plot

The story follows Ted, a 12-year-old boy with a unique way of thinking, as he and his sister Kat investigate the mysterious disappearance of their cousin Salim, who vanishes while riding the London Eye. Their search uncovers a series of clues that ultimately lead to a condemned building awaiting demolition.

## Key Characters

Ted  
Kat  
Salim  
Marcus  
Aunt Gloria
